"In my 20s, ISC conferences and *Sculpture Magazine* gave me the opportunity to observe and learn from other artists. In my 30s, ISC gave entrée to studios of important artists like George Rickey, and *Sculpture Magazine* provided practical advice on the business of sculpture. In my 40s, contacts formed through ISC meetings and *Sculpture Magazine* are helping to launch my solar vision for the future, where materials used in my sculptures generate clean electricity for parks and buildings."
